

## Stop AOL From Starting Automatically

1. Open Internet Explorer (it can cause this problem).
2. Click Tools...Internet Options.
3. Click the Program tab.
4. Click Reset Web Settings, then click Yes and OK.
5. Next, click the Connections tab.
6. In the Dialup Settings or Dialup & Virtual Private Network Setting box, click America Online and choose Never Dial A Connection.
7. In that same window, select AOL and click REMOVE.
8. Now restart your computer.
