

Mouse Wheel Enlarges Fonts

If you hold down the Ctrl key on your key board and turn the small wheel in the middle of your mouse, the print size will change - it will either get larger or smaller - depending on which way you turn the wheel. If your mouse wheel fails to change print, go to control panel and click MOUSE icon. See if this feature is activated for your particular mouse.

This may only work on web sites and documents. It does not always work on emails
