

Embarq Online Security

If you have a home network and you download and install “Embarq Online Security” you may have a problem with the home network not working. Try this:

1. At the right end of the Task bar right click on the Embarq icon.
2. Then click on the “Open Embarq Online Security” window.
3. To the right of the “Firewall” option click on “Change”
4. Click on the arrow for the Firewall security level selection.
5. Click on “Office, Printer/File Sharing” option.
6. Click OK.
7. Close the Embarq Online Security window and restart your computer.
