Microsoft Internet Explorer AutoComplete

You can configure AutoComplete to save and suggest only the information you want. You can choose whether to use AutoComplete for Web addresses, forms, and passwords, or not use it all. You can also clear the history for any of these.

1. In Internet Explorer, on the **Tools** menu, click **Internet Options**.
2. Click the **Content** tab.
3. Under **Personal information**, click **AutoComplete.**
4. Select the check boxes for the AutoComplete options you want to use.
