Snopes Copy and Paste

1. Open Snopes, find the info you're looking for.
2. With the info article in front of you in Snopes,
3. Highlight the Snopes address in the browser address bar and Paste into the browser address bar the following line and press GO.

`javascript:void(document.onselectstart=null)`

```
 4. The info article will still be on the page in front of you. Now
you'll be able to copy the article and paste it into an email or a
wordprocessor document.
```

```
