

GMail Account Setup

Google's gmail is a very good webmail program. Many good features and easy to use. One of it's best features is that you have unlimited storage of email.

1. Go to www.google.com.
2. Click on gmail and follow instructions for setting up your own gmail account. If you're not happy with the email program you're using, give gmail a try. It's free and easy to use. And it can be setup to use with Outlook Express.
