

DOWNLOADING SOUNDS To Use With Windows Events

First: Download Sounds

1. Go Online to [www .google.com](http://www.google.com)
2. Type **FREE *.wav** in the search bar.
3. Click GO or Google Search.
4. Choose a site (of the more than 4 million available.)

Two of my favorite sites are
Har's WAV World & The Daily WAV.

At the top are several categories of Windows Events.
Choose One.

Left Click on the wav file to hear it.

Right Click on the wav to download.

A menu appears: Click Save Target As:

Save new wav in C:/WINDOWS/MEDIA

TO ASSOCIATE SOUNDS WITH WINDOWS EVENTS

1. Be sure to download sounds (*.wav) from the Internet into the C:/Windows/media folder.
2. Open Control Panel and Click on Sounds.
3. Select an Event.
4. Click on Browse
5. Select Sound and Click OK (or it may say OPEN).
6. Close Control Panel and try your new sound.
