TIPS

- **You can get more out of web pages by using basic computer skills like right clicking, left clicking, hovering over a hyperlink, etc.**
- **For Example - RIGHT CLICKING on a file name yields a choice of “save file as” which allows you to download a file without opening it so it can be opened later. Items you might want to do this with: Thursday’s Daily Sun Recreation Guide; VCC’s List of Clubs in The Villages**
- **Enlarge text by holding the Ctrl key and spinning the mouse wheel OR by holding the CTRL key and tapping on the “ + ” key**
- **PDF documents can be “searched” and zoomed in/out on.**
