

PowerQuest DriveImage

Power Quest DriveImage can be used to make disk images of your hard drive that can then be saved on a second hard drive. If you only have a single hard drive that has only one partition on it (C) then you can't use DriveImage.

Other programs to do backup

Norton's Ghost (Preferred by most)

Acronis

BackupMyPC 4.85

NovaBackup Professional Edition 7.0

Go to this web page to see a list of quite a few backup/restore programs with free trial downloads. The two programs listed above are included in the list.
