

Burn BIN. file to a CD-RW

It takes several hours to encode (change AVI. file to DVD format).

1. Using the WinAVI Video Converter program 8.0 (about \$30.00), convert the Mpegav. file on the CD-RW to an AVI. file on your hard drive.
2. Using DVD Santa (\$30.00) convert the AVI. file to DVD format.
3. Use DVD Santa will burn it to a DVD.

You can now watch the movie on your TV through your DVD player.
