

## **CD-WRITER MULTISESSIONS**

This is an option to keep the CD open so that more data may be added at a later time.

Some CD writer programs do not show the Finalize option.

**After adding all the data files you want to burn onto the cd at this time, select CLOSE THE SESSION. If you select FINALIZE THE CD you will not be able to add more files later.**

**If it is a music CD, you may not be able to play it on your stereo if you don't finalize it.**

**Revised 6/14/2006 JMM**
