Movie Copying using DVD Shrink and NERO

1. Put in the Movie you wish to copy, if it auto starts, cancel it.
2. Open DVD Shrink.
3. Open DISK.   DVD will start analyzing it. You may want to remove the other languages, subpictures,etc. so the movie itself will fit onto one DVD disk.
4. Click on the actual movie TITLE.
5. Click Backup – Backing up DVD will pop up and ask where you want to store the temp file. Create a Folder, e.g. C:\Movies\(title of this movie)
6. Click OK.
7. When finished copying to the temp file, it may popup NERO. If NERO doesn't popup, put in a blank DVD and open NERO.
8. Click Burn DVD Video File
9. Click ADD & locate the video files\(your movie). Select ALL VIDEO FILES and click ADD.
10. Click Finished
11. Click Next
12. Click BURN
