IOGEAR KVM SWITCH

Lifetime Warranty

Allows one monitor, one mouse and one keyboard to be used with 2 computers.
If mouse not detected maybe the Easy-Switch needs to be reset.
1. Turn off computers.
2. Unplug the KVM cables
3. Wait 5 sec and plug back in.
4. Turn computers back on.

If mouse still doesn't work, check that you have the mouse set to PS/2 and not to serial mode.

Check that the correct driver for the mouse is installed.

If having video problems:
Resolution or bandwidth set too high. Lower resolution and/or bandwidth.

Still having problems, contact IOGEAR online for replacement.
