

Microsoft Support for home users

PCSafety is a toll-free telephone number provided by Microsoft technical support. PCSafety Support is intended for the home user. PCSafety helps customers remove malware infections such as viruses, spyware (including unwanted software), and adware. It also helps customers protect their computers by using Windows Firewall, Windows Defender, and Windows Update.

The number can be contacted by dialing toll free (in North America) 1-866-727-2338 (or (866) PC-SAFETY).
