

## Temp Folder Autocleaner

Clean out the Temp folder at PC Bootup

1. Open Notepad
2. Type:  
Rd %temp% /s /q  
Md %temp%
3. Save to desktop
4. Name it cleantemp.bat
5. Now, drag the file from the desktop onto the START button until the menu appears.
6. Hover over All Programs (in XP or 2K) until that menu appears
7. Drop it onto the STARTUP folder.
