

Control Panel Views in Win 7

In Win 7 you may choose from 3 views of the Control Panel window. Category, Large Icons or Small Icons view. Category View is the default.

- **Category View - 8 categories with the most common tasks listed below the category name. Click a Category and on the left side a pane opens with a list of the tasks in that category.**
- **Large or Small Icons View - Lists all the items common to all Win 7 installations.**

To change the CP View, click START....Control Panel. Click CHANGE VIEW at the top right and make your choice.

The choice made remains until that choice is changed even when the computer is restarted.
