

Win 7 and Vista Snipping Tool

1. Click Start...Accessories.
2. Append the Snipping tool to your Start Menu or to your Taskbar by right clicking on Snipping tool and choose "pin to..".
3. Go to www.thevillagescomputerclub.com and download the Presentation on using the Snipping Tool.

Note: There is a similar tool that those not using Vista or Win 7 can download called SnagIt, MWSnap, and PrintKey 2000
