XP LIST OF DEVICES

- 1. Right-click "My Computer" and choose Properties.
- 2. On the System Properties window, switch to the Hardware tab and then click the Device Manager button.
- 3. To print a list of devices on your system, just choose "Action" and then "Print."
- 4. On the Print dialog, make sure to switch the report type to "All devices and system summary" and then click Print. Now you have a list of all the devices on your system.

Example:
