WAVE PLAYER

The sound recorder only allows 60 sec. The Wave Player will record several minutes.

WAVE PLAYER

1. Locate the WAVEPLYR.EXE on your computer. Click Start…all
programs…accessories…entertainment….Recorder.
2. Click MICROPHONE, a Sound Selection box will pop up with PCM in the box, leave it.
3. Click NAME and select RADIO QUALITY.
4. Click SAVE AS and type .wav in that box. Close the box
5. Click the red RECORD button and begin recording.
6. When recording is complete, click WAVE on the menu bar and select SAVE RECORDING.
7. Locate the folder to which you wish to save it, give it a name and click SAVE.
Note you can create a recorded message, save it as a file, then attach that file to an email and
send it along to a friend on a birthday,etc.

Note: After saving the file, it's a good idea to locate the file, rightclick it and select Properties to
see just how big the file is…sometimes what seems to be a small file may be actually very big.
