

## **INTELLIMOVER**

A program made by Detto ([www.detto.com](http://www.detto.com)) and is called IntelliMover Version 2.0 is for moving files from one computer to another using a cable. It has a lengthy user's manual, that states that the three types of cables which can be used to connect the old to the new computer are: Low Cost Parallel Transfer Cable, High Speed Parallel Cable, or Detto USB Cable.
