

Word Perfect Email

You can send an email message to a person or group from Word Perfect Address Book using the default mail program you set. Word Perfect Address Book uses the default email address specified for an individual address entry, and for the address entries contained in a group.

- 1 Click an address entry in the Summary view.
- 2 Click Tools Send mail.

Notes

- For more information about creating and sending email messages, see CorelCENTRAL Mail documentation.
- You can also manage certificates associated with each email address stored in an address book. For more information, see "Managing certificates in CorelCENTRAL Address Book."
